EASY DUNKER

Set Up Instructions

1. Select a level area that is away from electricity.
2. Unhook trailer and lights from tow vehicle and roll to set up area. (NOTE: Trailer and tank are one unit, do not try to separate.)
3. Unplug flat 4 light adapter. Raise tongue end of trailer and remove hitch pins from tongue bar. Slide tongue bar out and replace pins in bar.

Extra \$25.00 FEE if flat 4 light adapter bar is returned damaged. 

4. Slowly lift up and set tank upright. (Be careful not to drop tank on its bottom.)
5. Untie rope holding the wing against the tank. Swing wing out into position. It will be necessary to block the bottom of the wing so the wind does not move it as this will cause the target arm to bend. (2 STAKES PROVIDED)*

***If on pavement weigh down with sandbags.**

6. Hang vinyl backdrop with bungee cords provided.
7. Check drain plug to make sure it is tight and then fill tank to at least 8" from the top with water. (approx. 500 gallons - 1½ - 2 hours to fill and drain)
8. Place arm pin into hole and secure with pin. End of arm goes between the trigger mechanism. Target screws onto the end of arm after backdrop is hung.

9. You **MUST** use the ladder on back to climb into tank. Check to see that the seat is properly secured and released by the front of the seat and push down. With the other hand "test" the target to see that it works properly. Train person on tank to reset the seat properly each time.

Rope off an area around the dunk tank to keep spectators 5 feet away from tank.

1. As soon as you are finished using the Dunker, open the drain plug and let the tank empty. (It takes about 1½ hours) Rinse out any debris.
2. Remove target, vinyl back drop and arm.
3. Fold wing in against the side of the unit and **securely tie off**. Then slowly tilt tank back onto its wheels.

4. Place seat in its “up” position and lock.
5. Insert hitch tongue and use both pins to secure it. Plug flat 4 light adapter on hitch into flat 4 adapter on dunk tank frame.

6. Attach trailer to vehicle. Put pin or bolt through hitch release lever and secure. Attach safety chain to vehicle.

7. Hook up lights to tow vehicle and be sure to test the turn signals and brake lights before towing.
8. Place target, target arm, balls and vinyl backdrop in tow vehicle.

YOU WILL BE CHARGED REPLACEMENT COSTS PLUS FREIGHT FOR ANY ITEMS NOT RETURNED.

**PLEASE: Wipe off vinyl backdrop before storing.
There will be a cleaning fee of \$25 if returned dirty.**

SAFETY FIRST!
