

# Octopus Maze

## **READ CAREFULLY BEFORE OPERATING UNIT**

### **SETTING IT UP:**

1. Unroll the MAZE from the carrying bag. The thicker, darker color is the floor. Be sure this is on the downside of the unit.
2. Locate the front entrance door opening and also the Velcro opening to go around the mouth of the blower. **BE SURE THEY ARE LOCATED WHERE YOU WANT THEM REGARDING ACCESS TO THE ENTRANCE, CROWD CONTROL, POWER SOURCE FOR BLOWER, ETC.**
3. Locate the tie down straps at each corner of the unit and make sure they are extended ready to be tied to stakes if on grass or sandbags if you are operating on a hard surface. Stakes should be 75% buried at no more than a 30 degree angle.
4. The MAZE will operate best right on the grass.  
Do not set up on a hard surface: Parking Lot outside or Gymnasium floor inside, **UNLESS YOU PUT SOFT MATS UNDERNEATH.** Approximate size is about 25' x 25'.
5. Wrap the Velcro opening around the mouth of the blower. If you have assistants, they should hold the tie downs at each corner until the Maze is inflated. Once inflated, the tie down straps should be secured to the stakes or sandbags.
6. If you are setting the Maze up by yourself, secure the tie down straps loosely to the stakes before inflating. **DO NOT TIE THE MAZE DOWN SECURELY BEFORE INFLATING AS THIS COULD CAUSE THE MATERIAL TO TEAR WHILE THE MAZE IS INFLATING.**
7. Place the sandbags inside the ends of the outer tentacles. Be sure the sand bags are placed inside the slip covers which are securely closed with the Velcro. This is very important to prevent sand from spilling inside the Maze.
8. Plug directly into power source; if using an extension cord be sure it does not exceed 50 feet and is a 14 gauge cord. Turn the blower on to High speed.
9. When folding up the unit, Roll the windows, **DO NOT FOLD THEM.**  
Pack the Maze into the carrying bag without stuffing or forcing.

Do not pack the unit away wet. The unit must be thoroughly dried before packing!  
**THERE WILL BE A \$75 CLEANING FEE IF RETURNED WET OR DIRTY**
